

**FOI requests re: unlawfully closed fluoridation
Council Meeting of January 21st, 2016**

**Proposal to have redacted fluoridation promoter
Dr. Myron Allukian present again**

**Reimbursement of appeal fee(s) paid to Information
and Privacy Commissioner**

Christine Massey

Fluoride Free Peel

December 8th, 2016

Presentation will be available for download at:

www.fluoridefreepeel.ca

Water is Sacred. Water is Life.

FOI Request for Audio Recording

- **submitted August 9th, 2016; no audio provided as of December 6th, 2016**
- **October 24, morning: Canada Post delivered my mail, nothing from Region, Region late on October 19th deadline, no reply to my Oct. 20 email**
- **October 24, afternoon: I mailed an appeal to IPC re: Region's missed deadline & then emailed Region asking for IPC fee refund**
- **October 24, 30 minutes later: email & misleading letter dated October 18th arrived from Region, stating all but 12 meeting sections were “Released in Full” (nothing was provided)**

FOI Request for Audio Recording

- **November 25th: IPC rep confirmed on phone:**
 - **IPC encourages institution to releases upon request records that do not contain non-consenting 3rd party information, hence most sections of the meeting could have been provided months ago**
 - **Region's latest November deadline >1 week overdue**
 - **ongoing public interest aspect to this appeal**
 - **IPC rep is prohibited from stating the above in writing, & from copying me on his letter to the Region**

FOI Request for Audio Recording

- **November 28th: IPC rep outlined via email:**

the Region's intention to release only SOME of the records where the third parties consented → a.k.a. withholding records based on Region's OWN agenda

- **my new appeal to IPC for 'mediation' is forthcoming**

FOI Request for Written Transcript

- **separate request – same material, different format**
- **purpose: entitlement to both audio & written transcript – as explained to Clerk on Sept. 23rd**
- **never advised this would be a problem**
- **written transcript was already prepared by Staff as part of audio request, prior to Sept. 19**
- **submitted new request on October 3, 2016**
- **Staff continually replied with info re: audio request**
- **November 29: said I would appeal to IPC**

FOI Request for Written Transcript

- **November 30: partial transcript delivered to me**
- **Every word from pro-F experts David Juurlink and Myron Allukian redacted**
- **questionable citations of 10 (1) (b) & (c) of *MFIPPA***
- **another new appeal to IPC is forthcoming**
- **December 1st (59 days after submitting my request for transcript): advised for first time by Staff that they unilaterally rolled my audio and transcript FOI requests into one request**
- **Staff plans no further release of records?**

FOI Request Recap as of December 6th, 2016

- **no audio recordings provided**
- **partial written transcript provided:**
 - **every word from pro-fluoridation 'experts' David Juurlink & Myron Allukian withheld from public scrutiny**
 - **someone lacks confidence in their assessments**
- **no legitimate reason to withhold these critical records from Peel's illegally drugged and closed-out Residents**
- **2 new appeals to IPC forthcoming; Public deserves full disclosure, and in both formats**

Fluoride Free Peel's Requests:

- **All sections of all records relating to illegally closed meeting that do not contain non-consenting 3rd party info be immediately provided in both formats**
- **All such records be posted online, alongside the meeting minutes, for free, easy Public access (none are posted thus far)**
- **Automatic reimbursements of all IPC appeal fees associated with illegally closed meeting**

Fluoride Free Peel's Requests:

- **Reject current agenda item:
Councillor Tovey's proposal to bring
Myron Allukian back**
- **Disregard all input, past and future, from
David Juurlink and Myron Allukian, and
any future “fluoridation experts” whose
presentations are withheld from public
scrutiny**

Brain Research Update

U.S. National Institute of Health openly questioning safety of fluoridation in Canada

N.I.H. Gives \$300,000 to study neuro-developmental effects of fluoridated water on young developing brains in Canada

York University: *“Previous studies led by Till and former PhD student, Ashley Malin, indicate that fluoride in tap water is associated with attention deficit hyperactivity disorder (ADHD) in children and adolescents...”*

<http://yfile.news.yorku.ca/2016/11/25/york-professor-leads-study-that-could-help-answer-fluoride-safety-questions/>

Ashley Malin wrote Council in September 2015 about her ADHD research findings

<http://www.fluoridefreepeel.ca/re-water-fluoridation-committee-concerns-with-peel-regions-community-water-fluoridation-program/>

Brain Research Update

Groups Urge EPA to Ban Fluoridation (not to lower the so-called 'optimal level') Based on Risk to Brain

http://fluoridealert.org/wp-content/uploads/Summary-TSCA-petition.nov_.2016.pdf

(300+ studies indicate fluoride is neurotoxic;

Dr. de Villa has provided no adequate studies to prove that Peel's children are safe from neurotoxic effects)

Fluoride Free Peel's Request:

- **Immediate moratorium on fluoridation**

Fluoride Free Peel's Request:

- **Correct the ongoing imbalance:**

no more presentations from pro-fluoridation experts until more safe-water experts are heard from (i.e. Erin Brockovich, Gilles Parent, co-author of **Fluoridation: Autopsy of a Scientific Error)**

**Presentation will be available for download at:
www.fluoridefreepeel.ca**

Water is Sacred. Water is Life.
