## Council Motion of February 23rd

- New F concentration will be ?? ppm
- Less contaminated F additive:

Approved as a drug, food additive or nutritional supplement?

For claims re: reduction of cavities?

- Commitment to ongoing monitoring of oral health:  
Dental fluorosis in children old enough to show it?

# Formal Complaints re: Medical Officer & Health Commissioner

Dr. de Villa & Nancy Polsinelli won't answer questions re:

- Misleading, unscientific report on dental fluorosis?

Complaint:

# Please Stop Misleading Residents

- *“Is it safe to mix infant formula with fluoridated water?”*

*Yes. For infants who are formula-fed, mixing infant formula with optimally fluoridated community drinking water does not pose a risk to their health, growth and/or development.”*

# **Are you illegally mass-medicating York residents too?**

Did York residents consuming Peel's F'd water

provide informed consent

re: endocrine-disrupting, enzyme-inhibiting,  
neurotoxic fluoride

ever?

# Would lithium & statin drugs in tap water = 'water treatment chemicals'?

Claim:

F agent = water treatment chemical

... but no role in making water potable...

... & meets definition of 'Drug' in *Food & Drugs Act*

**For the sake of Peel's babies, children, sick  
and elderly:**

Please do the right thing

Cease fluoridation  
at least while the Province decides what to do

**WE DO NOT CONSENT!**
