Submitted via email to: info@hpeph.ca, poglaza@hpeph.ca

Dear Dr. Piotr Oglaza,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act*.

I did not find information on your website re how to submit the \$5 application fee during the "pandemic". Please advise ASAP, otherwise I will mail a cheque payable to Hastings Prince Edward Public Health, to the address listed above.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of yourself or Hastings Prince Edward Public Health describing the **purification** of any **"SARS-COV-2"** aka "COVID-19 virus" (including any "variants") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

Clarifications re my request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

Please also note that my request is **not for private patient information and not limited** to records that were authored by yourself or Hastings Prince Edward Public Health or that pertain to work done at/by Hastings Prince Edward Public Health. Rather, my request includes any record **matching the above description**, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by yourself and relied on as evidence of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Cc: Nancy McGeachy <NMcGeachy@hpeph.ca>

Ms. Massey,

Please find attached a letter regarding your FOI request received in April, 2021.

As you will see in the letter, we do not have the information you are looking for so we will shred the cheque you sent in the amount of \$5.00. The cheque will not be cashed.

Apologies for the lateness of this response.

Thank you
Piotr

Dear Ms. Massey:

Re: Information Inquiry Submitted on April 29, 2021

I am unable to provide a response to your inquiry as we are not in possession of the information you have requested. You may wish to contact the Public Health Lab of Ontario to inquire whether they can provide you with the information you are seeking.

I apologize for the significant delay in responding to this request. As you can imagine, there are significant competing pressures on staff time as we work to respond to numerous inquiries from the public, deliver vaccine clinics throughout the community, continue to manage cases and contacts, and deliver regular public health programs. Your patience is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Oglaza".
