Hi Christine!

I just received the response from the California Department of Public Health. It is not in a PDF format. I hope you will still be able to add it to your list. Of course they have "no records". If you need anything else, please let me know.

Sincerely,

Robin [REDACTED]

RE: Public Records Reference # P013542-081421

Dear Robin [REDACTED]

On August 14, 2021, the California Department of Public Health (CDPH) received your request for records under the Public Records Act (PRA) wherein you requested the following:

This is a request for general records, under the California Public Records Act § 6250 et seq.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the California Department of Public Health describing the purification (i.e. via filtration and ultra-centrifugation) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:

- Cultured an unpurified sample or other unpurified substance, and/or performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or

-Fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell

culture or from any unpurified substance, and/or

-Produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$5. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of "COVID-19". This information is not being sought for commercial purposes.

The California Public Records Act requires a response within ten business days. If access to the records I am requesting will take longer, please contact me with information about when I might expect copies.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Format

Electronic files conveyed to me via email, preferably in PDF format; I do not wish for anything to be shipped to me.

CDPH has completed a diligent search and has determined that it is not in possession of records that are responsive to your request. For this reason, this concludes CDPH's response to your request, which will now be closed.

Sincerely,

Taylor St. Mary
AGPA
CID/DCDC

To monitor the progress, update this request, or download responsive records, please log into the [Public Records Center](#).
