Peterborough, ON K9J 8M1

and/or

Jackson Square,  
185 King Street  
Peterborough, ON K9J2R8

Submitted via email to: [info@peterboroughpublichealth.ca](mailto:info@peterboroughpublichealth.ca); [matheson@peterborough.ca](mailto:matheson@peterborough.ca)

Dear Freedom of Information and Privacy Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*.

**A failure to respond within 30 days as required under MFIPPA will be interpreted as "no records" and made public.**

### Application Fee

Tomorrow I will telephone 705-742-7777 ext. 1820 to pay the \$5 application fee.

### Description of Requested Records:

All studies and/or reports in the possession, custody or control of Dr. Rosana Salvaterra, or any Peterborough Public Health staff member responsible for "clinic inspections", or any member of Peel Public Health's "infectious/transmissible disease" leadership, describing the **purification** (i.e. via filtration, ultracentrifugation and chromatography) of any **"HIV" aka "human immunodeficiency virus" or of any "Hepatitis B virus" or of any "Hepatitis C virus"**, directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. a human or animal cell line; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" from a patient sample and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on alignment/assembly/trimming/editing of thousands/millions of sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient records (or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample,

as per standard laboratory practices for the purification of other very small things).

Please also note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere** since the discovery of each alleged "virus".

In the interest of transparency and in accordance with the purposes of *MFIPPA*, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Ms. Christine Massey

RE: MFIPPA Request, dated August 21, 2021, File No: 2021-11

Dear Ms. Massey:

In response to your request under the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)* for:

*"All studies and/or reports in the possession, custody or control of Dr. Rosana Salvaterra, or any Peterborough Public Health staff member responsible for "clinic inspections", or any member of Peel Public Health's "infectious/transmissible disease" leadership, describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "HIV" aka "human immunodeficiency virus" or of any "Hepatitis B virus" or of any "Hepatitis C virus", directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. a human or animal cell line; fetal bovine serum)." And, "Please add "SARS-COV-2" (including any 'variants') to the list of viruses covered by this request."*

Peterborough Public Health has no records in relation to your request. Local public health agencies in Ontario are responsible for adherence to the Health Protection and Promotion and implementation of the Ontario Public Health Standards and related protocols as set by the Ministry of Health. Scientific advice is provided by Public Health Ontario. We do not work directly with patient samples related to the viruses noted above or analysis of these samples.

If you have any questions, I can be contacted at [lstinson@peterboroughpublichealth.ca](mailto:lstinson@peterboroughpublichealth.ca), or by calling (705) 743-1000, extension 253.

Yours truly,

Larry Stinson,  
Hons. B.Sc., MPA(M)  
Director of Operations
