

19 October 2021

Director Public Health
East Midlands Leicestershire – Mike Sandys

mike.sandys@leics.gov.uk

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by**

anyone, anywhere. This includes your own **website** which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

[FOI/3507] Purification of COVID-19 virus

From: leicestershire@infreemation.co.uk <leicestershire@infreemation.co.uk>

To: @p .me < >

Date: Tuesday, October 19th, 2021 at 12:37

Dear v ,

We are writing to you in relation to your request for information received on 19th October 2021. Unfortunately, we do not hold the information you have requested.

With regards to reports published in medical journals / databases, we would suggest searching for the relevant reports online.

Kind regards,

FOI Team
Leicestershire County Council
