FOIP request to Alberta re purification of "SARS-COV-2"

Christine Massey <cmssyc@gmail.com> Fri, Aug 13, 2021 at 8:17 PM
To: premier@gov.ab.ca, health.minister@gov.ab.ca, deena.hinshaw@gov.ab.ca, health.infoaccess@gov.ab.ca

To:
Jason Kenney, Premier of Alberta
Office of the Premier
Room 307, Legislature Building 10800-97 Avenue
Edmonton, Alberta T5K 2B6
Email: premier@gov.ab.ca

Tyler Shandro, Minister of Health
423 Legislature Building
10800 - 97 Avenue NW
Edmonton, AB Canada T5K 2B6
Email: health.minister@gov.ab.ca

Dr. Deena Hinshaw, Chief Medical Officer of Health
Alberta Health
4fl, 10025 Jasper Ave
Edmonton, Alberta T5J 2N3
Email: deena.hinshaw@gov.ab.ca

Jilliane Jolin, FOIP Coordinator
Alberta Health
19th Floor, Telus Plaza North Tower
10025 Jasper Avenue
Edmonton, AB T5J 1S6
Email: health.infoaccess@gov.ab.ca

Submitted via email to: premier@gov.ab.ca; health.minister@gov.ab.ca; deena.hinshaw@gov.ab.ca; health.infoaccess@gov.ab.ca;

Dear Premier Kenney, Minister Shandro, Dr. Hinshaw and Ms. Jolin,

This is a formal request for access to general records, made under Alberta's *Freedom of Information and Protection of Privacy (FOIP) Act*, as a result of public statements made by Dr. Hinshaw:

> *"...I, Dr. Deena Hinshaw, Chief Medical Officer of Health have initiated an investigation into the existence of COVID-19 within the Province of Alberta...* ***the investigation has confirmed that COVID-19 is present in Alberta****"*

in CMOH Order 37-2021, July 13, 2021, and

> ***"...the investigation has confirmed that COVID-19 is present in Alberta and constitutes a public health emergency as a novel or highly infectious agent that poses a significant risk to public health****"*

in CMOH order 06-2021, March 11, 2021; CMOH Order 09-2021, April 8, 2021; CMOH order 34-2021, June 30, 2021; CMOH order 10-2021, April 10, 2021.

Kindly advise ASAP how I may go about submitting payment of any required application fee(s).

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Premiere Kenney, Minister Shandro, Dr. Hinshaw or

any of their respective offices/institutions describing the **purification** (i.e. via filtration and ultra-centrifugation) of any **"COVID-19 virus"** (aka "SARS-COV-2", **including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1"**) directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am **not** requesting studies/reports where researchers **failed to purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on millions of sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request
For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting privatepatient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (i.e. **separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format
Electronic files conveyed to me via email, preferably in PDF format; I do not wish for anything to be shipped to me.

Contact Information:
Last name: Massey
First name: Christine
Address: [redacted]
Phone: [redacted]
Email: cmssyc@gmail.com

In the event you are unable to provide or cite any such records, or decline to do so, this will further confirm what has already been clear to me for some time: that no past, present or future "COVID-19"-related mandates and restrictions have **any scientific basis** whatsoever, which of course has serious legal implications.

Thank you in advance and best wishes,
Christine Massey, M.Sc.

FOIP request to Alberta re purification of "SARS-COV-2"

Christine Massey <cmssyc@gmail.com> Tue, Aug 17, 2021 at 10:33 AM
To: Health Info Access <health.infoaccess@gov.ab.ca>

Hello,

With whom am I communicating?

Am I required by the legislation to submit a request to the Dept. of Health through this portal, and am I prohibited by the legislation from using more than 1500 characters for my description of requested records and from using "special characters" and from copying and pasting my description of requested records into the portal?
https://eservices.alberta.ca/foip-request.html

The reason I ask is that I have attempted twice now to submit my request through this portal, and was forced to shorten the description of requested records. I refreshed the page, started all over again with a description that is only 1481 characters (including spaces) and I'm still getting this message:

> *The maximum character limit is 1,500 and you cannot enter any special characters. Do not copy and paste request text in this space.*

I do not have time to retype my description into the portal, which seems a bizarre and ridiculous requirement that serves no purpose other than to make things difficult for the requester.

Below is my shortened description that is being rejected by the portal.

> *All studies and/or reports in possession, custody or control of the Dept describing purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the sample was not 1st combined with any other source of genetic material.*
>
> *I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:*
>
> • *cultured an unpurified sample, and/or*
> • *performed an amplification test on genetic material from an unpurified substance, and/or*
> • *fabricated a genome based on sequences detected in an unpurified substance, and/or*
> • *produced electron microscopy images of unpurified things.*
>
> *I am not requesting records describing the replication of a "virus" without host cells, or private patient info or records that describe a suspected "virus" floating in a vacuum; simply records that describe its purification (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*
>
> *My request includes any study/report matching the above description, i.e: any published peer-reviewed study authored by anyone, anywhere.*
>
> *If records match the above description & are available in public domain plz provide enough info about each one so that I may identify & access each one with certainty (i.e. title, author(s), date, journal, location. Please provide URLs where possible.*

This request has already taken an inordinate amount of time and effort on my part.

Please advise how this request may be submitted to Premiere Kenney, Minister Shandro, Dr. Hinshaw and their respective offices/institutions, with payment, ASAP. This request is an urgent matter of public interest.

Best wishes,
Christine

FOIP request to Alberta re purification of "SARS-COV-2"

Christine Massey <cmssyc@gmail.com> Tue, Aug 17, 2021 at 10:36 AM
To: Health Info Access <health.infoaccess@gov.ab.ca>

P.S. The other portal that is linked to the webpage you referred me to requires one to sign up for a "MyAlberta Digital ID", which I do not want. Is a "MyAlberta Digital ID"
required by the legislation in order to submit a request to another institution?

https://account.alberta.ca/login?spEntityID=https%3A%2F%2Fportal.foip.alberta.ca%2Fshibboleth&goto=https%3A%2F%2Faccount.alberta.ca%2Fsso%2FSSORedirect%2FmetaAlias%2Fidp3%3FReqID%3D_be0fd50887c4ad07137a66c6b048d832%26index%3Dnull%26acsURL%3Dhttps%253A%252F%252Fportal.foip.alberta.ca%252FShibboleth.sso%252FSAML2%252FPOST%26spEntityID%3Dhttps%253A%252F%252Fportal.foip.alberta.ca%252Fshibboleth%26binding%3Durn%253Aoasis%253Anames%253Atc%253ASAML%253A2.0%253Abindings%253AHTTP-POST

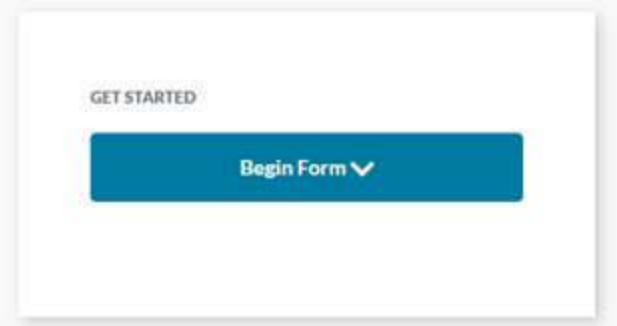
FOIP request to Alberta re purification of "SARS-COV-2"

Health Info Access <health.infoaccess@gov.ab.ca> Tue, Aug 17, 2021 at 11:16 AM
To: Christine Massey <cmssyc@gmail.com>

Hello,

This is the Alberta Health FOIP Office. Apologies for not being more clear in the previous email.

The website link that was provided to you is the quickest way to submit your request. On the link that was provided, on the right hand side there is a blue tab that says “begin form”.



Click that, and it will bring you the form to fill out your information and request. You shouldn’t need a My Alberta Digital ID. After you submit your request it will take you to a secure checkout and you can make payment as a guest instead of using the Digital ID.

For the request text that is over the character count, you can put “Please see my request text submitted to Health.Infoaccess@gov.ab.ca on [DATE] at [TIME]”.

Alternatively, you can submit a “request to access information” form (attached) and submit a cheque to our office via mail made payable to the Government of Alberta in the amount of $25.00 to the address listed in the signature block below.

To submit a request for Dr. Hinshaw, and Minister Shandro that is through our office, Alberta Health Ministry. To submit a request for the Premiere’s office, you will have to submit your request to Executive Council. Please see the following link:

https://portal.foip.alberta.ca/citizenportal/app/landing

I hope this helps, and again, apologies for not providing enough detail in the previous email.

Hello Christine Massey,

Apologies for the delay in processing, we have received your request and have picked up your cheque from the mail. Can we confirm the request text as the following and can you provide a date range in which to search for the records? Once you provide a date range we will send you your file number and details of your request with our office.

"All studies and/or reports in possession, custody or control of the Dept describing purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the sample was not 1st combined with any other source of genetic material.

I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- *cultured an unpurified sample, and/or*
- *performed an amplification test on genetic material from an unpurified substance, and/or*
- *fabricated a genome based on sequences detected in an unpurified substance, and/or*
- *produced electron microscopy images of unpurified things.*

I am not requesting records describing the replication of a "virus" without host cells, or private patient info or records that describe a suspected "virus" floating in a vacuum; simply records that describe its purification (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

My request includes any study/report matching the above description, i.e: any published peer-reviewed study authored by anyone, anywhere.

If records match the above description & are available in public domain plz provide enough info about each one so that I may identify & access each one with certainty (i.e. title, author(s), date, journal, location. Please provide URLs where possible. "

Kind Regards,

awaiting long overdue response

Christine Massey <cmssyc@gmail.com> Mon, Nov 15, 2021 at 3:54 PM
To: Health Info Access <health.infoaccess@gov.ab.ca>

Hello,

Date range: October 1, 2019 - present.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of **Minister Shandro, Dr. Hinshaw or Alberta Health** describing the **purification** of the alleged **"COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material **(i.e. monkey kidney cells aka Vero cells; fetal bovine serum)**.

Clarification of Request:

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:
Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Best wishes,
Christine

Dear Christine Massey:

Re: *Freedom of Information and Protection of Privacy Act* Request

Thank you for your recent request for information submitted to our office on August 13, 2021. We apologize for the delay in responding. Upon further review of your request we have determined that the records you are seeking are held by Alberta Health Services and need to be requested directly from them.

Please visit the link provided below to submit a request for Access to General Information from **Alberta Health Services (AHS)**:

Visit https://www.albertahealthservices.ca/about/Page13171.aspx.

To contact Alberta Health Services: **Tel**: 1-877-476-9874; **Fax**: 1-855-935-0646;
Email: privacy@ahs.ca

We have received the cheque you submitted for payment. Please confirm if you would like for us to return the cheque to you or destroy it, because the Government of Alberta cannot accept payments for Alberta Health Services (AHS). As well, we are returning your original documentation as an enclosure.

Sincerely,

Alberta Health FOIP Office

To: Health Info Access <health.infoaccess@gov.ab.ca>
Bcc: [redacted]

Hello,

With whom am I communicating? Please provide your name, as I require it for my records.

My request is for: "*All studies and/or reports **in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health***". It has nothing to do with Alberta Health Services.

According to the Ministry's website, it is the **Ministry** that sets policy and direction, not AHS.

And, as stated in my request, it is **Dr. Hinshaw's** name that appears in CMOH orders, claiming to have *"initiated an investigation into the existence of COVID-19 within the Province of Alberta"* and that *"the investigation has confirmed that COVID-19 is present in Alberta"*.

Section 10 of the Act states:
"Duty to assist applicants 10(1)
The head of a public body must make every reasonable effort to assist applicants and to respond to each applicant openly, accurately and completely."

Section 12 of the Act states:
"Contents of response 12(1)
In a response under section 11, the applicant must be told
*(a) **whether access to the record or part of it is granted or refused,***
(b) if access to the record or part of it is granted, where, when and how access will be given, and
*(c) **if access to the record or to part of it is refused,***
*(i) **the reasons** for the refusal and the provision of this Act on which the refusal is based..."*

I have already waited patiently **for 3 months**, and I now require an open, accurate and complete response from Alberta Health that **clearly states** whether or not Alberta Health has any records that match my description, and if so, whether or not access will be provided.

Be advised that all of the communications related to my August 13, 2021 request will be made public within the next few days.

Thank you and best wishes,
Christine

To: "cmssyc@gmail.com" <cmssyc@gmail.com>
Cc: Health Info Access <health.infoaccess@gov.ab.ca>

Hello Christine Massey,

Apologies for the confusion below from our office. I would like to confirm that we will be processing your request. As originally worded, your request indicated the information would reside with AHS, however since your amended request text specifically requests records from offices at Alberta Health, we will be processing your request.

I would just like to confirm your request text wording with which to move forward as the following:

"Studies and/or reports in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

I am requesting records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.
Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

Date range: October 1, 2019-November 22, 2021"

Is this correct? If so, we will begin processing your request and you will receive further communication in regards to your file number and other relevant information for communication with our office.

Thank you,

Jilliane

RE: FOIP Re-Direct to AHS- Correction

Christine Massey <cmssyc@gmail.com> Fri, Nov 26, 2021 at 12:36 PM
To: Jilliane Jolin <Jilliane.Jolin@gov.ab.ca>

Hello Jilliane,

My original request on August 13 was sent to health.infoaccess@gov.ab.ca over 3 months ago and was for "*All studies and/or reports in the possession, custody or control of Premiere Kenney, Minister Shandro, Dr. Hinshaw or any of their respective offices/institutions*" (see attached).

On Aug 17, someone writing from health.infoaccess@gov.ab.ca stated that "***To submit a request for Dr. Hinshaw, and Minister Shandro that is through our office, Alberta Health Ministry"*** and to use a different method for contacting the Premier's office, which I did.

On November 15, I enquired with health.infoaccess@gov.ab.ca as to why the response was taking so long. That same day I was asked by someone from health.infoaccess@gov.ab.ca to **confirm the wording of my request**, which I did, also on that same day (see attached).

I was also asked for a time frame, and I indicated **Date range: October 1, 2019 - present** (see attached).

The next day, someone from health.infoaccess@gov.ab.ca tried to redirect me to AHS, which I explained was inappropriate (see attached).

Why are you now saying that "*As originally worded, your request indicated the information would reside with AHS*"?

Why are you now asking me to confirm the wording and the time frame **again,** when I just did so 11 days ago and have now been waiting for **15 weeks**?

I was told on November 15, after I had already waited for **3 months**:

> *Apologies for the delay in processing, we have received your request and have picked up your cheque from the mail.*
> *Can we confirm the request text as the following and can you provide a date range in which to search for the records?*
> ***Once you provide a date range we will send you your file number and details of your request with our office.***

Your office already has the wording of my request, and the time frame October 1, 2019 - present.

Christine

To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Alberta Health received the following request from you on August 17, 2021 to access information under the *Freedom of Information and Protection of Privacy* (FOIP) *Act*:

> ***Studies and/or reports in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).***
>
> ***I am requesting records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).***
>
> ***I am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.***
>
> ***Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.***
>
> ***Date range: October 1, 2019-November 22, 2021"***

We have 30 days under the FOIP Act to respond to your request and will reply to you by **December 30, 2021,** if possible. We will contact you if we require further information.

If you require further clarification, or have any questions concerning this request for information under the FOIP Act, contact Cyd Avendano, FOIP/HIA Advisor, at 780-643-9268 or cyd.avendano@gov.ab.ca .

Kind Regards,

Alberta Health FOIP Office

Dear Christine Massey:

Re: *Freedom of Information and Protection of Privacy Act* Request
Reference No.: 2021-G-0658

Alberta Health received the following request from you on August 17, 2021 to access information under the *Freedom of Information and Protection of Privacy* (FOIP) *Act*:

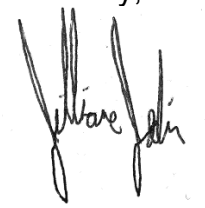
> ***Studies and/or reports in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).***
>
> ***I am requesting records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).***
>
> ***I am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.***
>
> ***Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.***
>
> ***Date range: October 1, 2019-November 22, 2021"***

Classification: Protected A

We have 30 days under the FOIP Act to respond to your request and will reply to you by **December 30, 2021,** if possible. We will contact you if we require further information.

If you require further clarification, or have any questions concerning this request for information under the FOIP Act, contact Cyd Avendano, FOIP/HIA Advisor, at 780-643-9268 or cyd.avendano@gov.ab.ca .

Sincerely,



For:
Cyd Avendano,
FOIP/HIA Advisor
Alberta Health

2021-G-0658 Acknowledgement Letter

To: Health Info Access <health.infoaccess@gov.ab.ca>, cyd.avendano@gov.ab.ca, Jilliane Jolin <Jilliane.Jolin@gov.ab.ca>

Who sent me this email? Please identify yourself (name and position), if you are someone other than Cyd Avendano, author of the letter you attached.

Please review what you/Cyd have sent me in both the email and letter, and ask yourself if it makes the slightest bit of sense (unless your goal is to stall and obstruct justice even further than your office already has):

> *Alberta Health received the following request from you on **August 17, 2021** ....**We have 30 days** under the FOIP Act to respond to your request and will reply to you by **December 30, 2021**...*
>
> *We will contact you if we require further information.*

Your office has already taken 3.5 months and I'm still waiting for a response - although the answer is perfectly clear.

Your office has already contacted me **twice** asking me to repeat information I had already provided. I already confirmed the wording and time frame on November 15th. Your office already has all the necessary information.

All of the prior communications are attached, and have been made public, and these most recent communications will now be added to the file and also made public.

Best wishes,
Christine
