

FOI request to Dalhousie University re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: FOIPOP@dal.ca

Mon, Nov 15, 2021 at 12:57 PM

November 15, 2021

Heather Casavechia
FOIPOP Coordinator
Dalhousie University
Room 225, Henry Hicks Academic Administration Building
PO Box 15000
Halifax, Nova Scotia B3H 4R2
Submitted via email to: FOIPOP@dal.ca

Dear Ms. Casavechia,

This is a formal request for access to general records, made under Nova Scotia's *Freedom of Information and Protection of Privacy (FOIPOP) Act*.

Description of Requested Records:

1. All studies and/or reports in the possession, custody or control of Dalhousie University's President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Dalhousie Advisory Council, any health or science department head at Dalhousie University, any of the men or women serving in those positions or any of the men or women responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses, describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of my request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study/record that (in the opinion the man or woman ultimately responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses) proved the existence of "SARS-COV-2" in Wuhan, China.

If any records match the above descriptions of requested records and are currently available in the public domain, please

provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Electronic (i.e. pdf) documents sent to me via email; I do not wish for anything to be shipped to me.

Application Fee:

I will mail a check for \$5 to the address listed above.

Contact Information:

Last name: Massey

First name: Christine

Address: [REDACTED] Peterborough, Ontario, Canada [REDACTED]

Phone: [REDACTED]

Email: cmssyc@gmail.com

Thank you in advance and best wishes,
Christine Massey, M.Sc.

Good morning,

Thank you for your Email. In order to move forward with your request, please submit a completed [application form](#). You can send the completed form back to this email address.

Please note Dalhousie has 30 days in which to answer your request, and the timeline will not begin until both the application form and the application fee has been received by the FOIPOP office. I understand you have mailed the application fee already so I will keep an eye open for it here.

Thank-you,

Brenda Williams, LIT, CIAPP-C (she/her)

Good Morning Ms. Williams,

Could you please cite a provision in Nova Scotia's *Freedom of Information and Protection of Privacy (FOIPOP) Act* that authorizes an institution to dismiss a request on the grounds that it is not presented in a specific form? I am aware of no such provision.

Best wishes,
Christine

Hi Christine,

Great question. The regulations of our FOIPOP act prescribe the forms applicable to the act. You can view the regulations [here](#). Form 1 is the form which allows application for access to information. We have simply adopted this form into something more accessible for requesters, you will see it is similar but specific to Dalhousie instead of the generic form.

However, not all information asked for on the form is strictly necessary to make an application. We do not require a mailing address unless you wish to receive your correspondence and information release via mail. Same with phone number, we do not require that unless you wish for us to call you. There is also a spot for a fax # on the Form 1 – again not required unless you wish to receive correspondence via fax. And finally, if you are submitting the form electronically you do not need to sign it in the traditional way.

Hope this helps!

Dear Ms. Williams,

It seems that the answer to my question is "no", you cannot cite a provision in Nova Scotia's *FFOIPOP Act* that authorizes an institution to dismiss a request on the grounds that it is not presented in a specific form, because there is no such provision.

The regulation reads:

Application for access to records

- 3 (1) An application
 - (a) must state that the application is made pursuant to the Act;
 - (b) **may be** in Form 1.

Therefore, I require you to accept the request that I have already submitted via email.

Best wishes,

Christine

Hi Christine,

We are not dismissing your request. We will accept your original Email in place of an application form. I will await our receipt of your 5.00 application fee.

Kind regards,

Dear Christine Massey,

RE: Dalhousie University FOIPOP Request # FOIPOP-2021-486 – Decision Letter

Your complete application for access to information under the *Nova Scotia Freedom of Information and Protection of Privacy Act* (the Act) was received by Dalhousie's Privacy Office on **November 24, 2021**. You requested the following information:

"1. All studies and/or reports in the possession, custody or control of Dalhousie University's President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Dalhousie Advisory Council, any health or science department head at Dalhousie University, any of the men or women serving in those positions or any of the men or women responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses, describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study/record that (in the opinion the man or woman ultimately responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses) proved the existence of "SARS-COV-2" in Wuhan, China. If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible."

Dalhousie University has completed a full search for responsive records; and we have found that there are **no records** in the custody and control of Dalhousie University that are **responsive to your request**.
