FOIL #: 21-02-073

Dear Mr. Huston:

This letter responds to your Freedom of Information Law (FOIL) request of February 1, 2021, in which you requested “[r]ecords which indicate that the virus* which purportedly causes COVID-19 disease, has been isolated. (* Known by various names, including SARS-nCoV, SARS-COV-2, 2019-nCoV, SARS2-nCoV- 19, HCoV-19, etc).”

Please be advised that the culture and isolation of SARS-CoV-2 virus is a time-consuming process and a high biohazard procedure, that can only be performed in a certified biosafety level 3 (BSL-3) laboratory. Very few clinical laboratories can perform this procedure as most do not have BSL-3 facilities. The New York State Department of Health’s Wadsworth Center (“Wadsworth”) does have BSL-3 laboratories and as of November 12, 2021, has performed cultures on a total of 306 specimens from COVID patients, randomly selected throughout the pandemic. Due to the cost and labor-intensive nature of the procedure, it is only performed on a small fraction of samples. From these 306 specimens, the SARS-CoV-2 virus has been isolated 194 times.

The lineage of the harvested viruses from the cultures is determined by analyzing the entire genomic viral sequence following next generation sequencing. This is also a costly and time-consuming procedure, only performed on a small percentage of samples. For 85 of the inoculated samples that grew, the virus lineage (variant type) is not known at this time as the sequence analysis has not been performed.

Further, variants are only assigned a Greek letter by the World Health Organization when they are determined to be Variants of Interest or Variants of Concern. Thus, there have been numerous variants identified that do not have a Greek letter designation. For the 109 samples that have been cultured and sequenced at Wadsworth, the lineage and variant classifications identified are shown in the table below:

<u>SARS-CoV-2 Lineage</u>	<u>Greek letter designation</u>	<u>Number of Different Samples That Grew</u>

FOIA request to NYS Department of Health re: "SARS-COV-2" purification

Dear Freedom of Information Officer,

This is a formal request for access to general records, made under the *New York State Freedom of Information Law*.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the New York State Department of Health describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1", etc.) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test), and/or
- fabricated a "genome", and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

FOIL #: 21-11-095

Dear Christine Massey:

This letter is in regard to your Freedom of Information Law (FOIL) request of November 5, 2021, which is currently being processed.

Please be advised this Office is unable to respond to your request by the date previously given to you because a diligent search for responsive documents is still being conducted.

We estimate that this Office will complete its process by February 9, 2022. The Department will notify you in writing when/if the responsive materials are available for release or if the time needed to complete your request extends beyond the above date.

Should you require additional information or wish to discuss this matter further, please do not hesitate to contact me at (518) 474-8734.

Sincerely,

A handwritten signature in black ink, appearing to read "Rosemarie Hewig".
