Von

Dear Von .

Freedom of Information Act 2000

I can confirm that the information requested is held by Lincolnshire County Council. I have detailed below the information that is being released to you.

Request:

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of a "virus" addressed by any vaccine on either the childhood or adult U.K. "immunization schedule", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease. Please note that I am using 'purification' in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged 'virus' from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a 'virus'

requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells.

Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so

that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Response:

Lincolnshire County Council does not hold this information

Please quote the reference number 3089802 in any future communications.

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date of receipt of the response to your original letter and should be addressed to:

Lincolnshire County Council, Information Governance, County Offices, Newland,
Lincoln, LN1 1YL

If you are still dissatisfied with the Council's response after the internal review you have a right of appeal to the Information Commissioner at:

The Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire SK9 5AF.
Telephone: 0330 123 1113
Website: www.ico.org.uk

I will now close your request as of this date.

Yours faithfully

Sharon Chambers
