

19 October 2021

Director Public Health
London Lambeth – Ruth Hutt

rhutt@lambeth.gov.uk

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Freedom of Information Act 2000

This request is being handled under the Freedom of Information Act 2000.

Request:

Please note that I am using 'purification' in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged 'virus' from everything thing else in the patient sample) and instead:-

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- *produced electron microscopy images of unpurified things in a cell culture.*

Response:

We do not hold the information requested. Lambeth council does not own or operate any clinical laboratory facilities.

Right to review

If you are dissatisfied with the way in which your Freedom of Information request has been dealt with you can request an internal review. Tell us why you are unhappy with our response within 40 working days, and it will be looked at afresh. We will aim to provide you with our review response within 20 working days.

By email: foi@lambeth.gov.uk (Please quote the reference number above) or by writing to:

London Borough of Lambeth
Freedom of Information
P.O. Box 734
Winchester
S023 5DG

If you remain dissatisfied with the outcome of the review you have a further right to appeal to the Information Commissioner, who regulates the implementation of the Freedom of Information Act. The Commissioner can be contacted at the following address:

The Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire SK9 5AF.
Telephone: 0330 123 1113
Website: www.ico.org.uk

I will now close your request as of this date.

Yours faithfully
