Mayor's Office (OOM)

Request Title (required)

"SARS-COV-2" purification

64 characters remaining

Note: The agency, category, and title of your request will be visible to the public. Do not enter personal information here.

Ex: Queens Blvd Roadwork Permit.

Request Description (required)

All studies and/or reports in the possession, custody or control of the Office of the Mayor describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

Your request FOIL-2021-002-00688 has been successfully submitted to the Mayor's Office (OOM). The details of your request are shown below.

Request Title: "SARS-COV-2" purification

Request Description: All studies and/or reports in the possession, custody or control of the Office of the Mayor describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum). Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured an unpurified sample or other unpurified substance, and/or - performed an amplification test (i.e. a PCR test), and/or - fabricated a "genome", and/or - produced electron microscopy images of unpurified things. I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a "virus" without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information. I simply request records that describe purification (separation of the alleged "virus" from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). Please note that my request includes any study/report matching the above description, authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible. Format: Pdf documents sent to me via email; I do not wish for anything to be shipped to me.
