**1431/21 - ENVIRONMENTAL INFORMATION REGULATIONS REQUEST**

Dear Sir/Madam

Your request for information has now been considered and the information requested is provided below.

Request:

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultra-centrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:

cultured an unpurified sample or other unpurified substance, and/or performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Response:

**Rutland County Council does not hold this information.**

You are free to use any documents supplied for your own use, including for non-commercial research purposes. The documents may also be used for news reporting. However, any other type of re-use, for example by publishing the documents or issuing copies to the public will require the permission of the copyright owner, where copyright exists. Such a request would be considered separately in accordance with the relevant Re-use of Public Sector Information Regulations 2005 and is not automatic. Therefore, no permission is implied in the re-use of this information, until such a request to re-use it has been made and agreed, subject to any appropriate conditions. Any request to re-use the information should be made to me at the address below.
