Dear Freedom of Information Clerk:

**Note: twice my email to [info@peterboroughpublichealth.ca](mailto:info@peterboroughpublichealth.ca) has bounced back, hence I am copying Larry Stinson this time.**

I require copies of records, as per the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA).

### Application Fee

The \$5 application fee will be delivered to the address listed above.

### Background

On February 16, 2022, Thomas Piggott, the man who acts as Medical Officer of Health, Peterborough Public Health **tweeted** the following claim:

*I've lived through SARS in 2003, we quickly forgot.  
I've lived through H5N1 in 2005 & since, we quickly forgot.  
I've lived through H1N1 in 2009, we quickly forgot.  
I've lived through MERS in 2012, we quickly forgot.  
I've lived through Ebola in 2014, we quickly forgot.*

### Description of Requested Records:

All studies / reports in the possession, custody or control of Thomas Piggott or anyone else acting at Peterborough Public Health, that describe anyone on Earth finding and **purifying** (i.e. via filtration, ultracentrifugation and chromatography) **any of the 5 alleged "viruses" listed above by Thomas Piggott** directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of **genetic** material (i.e. a human or animal cell line; fetal bovine serum).

Please note that I do **not** require and do **not** want studies/reports where researchers failed to **purify** an alleged "virus" from a sick human's bodily fluid and instead:

- cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs, watched for cytopathic effects and called that "virus isolation", and/or
- performed an unreliable amplification test (i.e. a PCR test), that can only detect sequences and **not** "viruses", on the soup of genetic material extracted from a patient's bodily fluid or from monkey/cow/human cell culture supernatant, and/or
- fabricated an in silico (computer) sequence ("genome") from millions of sequences unreliably detected in the soup of total RNA extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or
- produced electron microscopy images of unpurified particles in a monkey/cow/human cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I

do not require or want records describing the replication of an alleged "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records.

I simply require records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I require any study/report matching the above details, **authored by anyone, anywhere**, since the alleged discovery of these alleged "viruses".

In the interest of transparency and in accordance with the purposes of *MFIPPA*, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Should it prove impossible to provide any such study (since none exist), then please provide or cite a study (maximum 3 studies) that, according to Thomas Piggott, proves the existence of any of the above "viruses". (This must include proof that the alleged particle/"virus" actually exists and was identified/characterized, actually circulated and replicated in many humans, and actually caused the spread of the disease in question via natural modes of exposure - animal experiments will be accepted).

p.s. To clarify: where I wrote "*animal experiments will be accepted*" - this applies to experimental proof of disease causation.

Also, please add "SARS-COV-2" to the list of alleged viruses for which I require records of purification, since Thomas Piggott claims to have lived through "COVID-19" also.
