

OIA: Health Act 1956 Viruses Purification and Variants

1 message

Tue, Apr 26, 2022 at 8:19 AM

To: OIA Requests <oiagr@health.govt.nz>

Greetings Official Information Officer,

This is a formal request for access to general records, made under the *Official Information Act*.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of The Ministry of Health describing the **purification** of any ALLEGED "virus" including any alleged "variants" which is claimed to cause ANY OF THE "infectious diseases" listed in the [New Zealand Health Act 1956 Section 1](#) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

I am not requesting studies/reports where researchers conflate the purification of virus particles as the purification of RNA/DNA.

For further clarity, I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not limited** to records that were authored by The Ministry of Health or that pertain to work done at/by The Ministry of Health. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by The Ministry of Health and relied on as evidence of a disease-causing "virus".

My request includes any study/report matching the above description, authored by anyone, anywhere.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Complexity

Please Note, this is not a complex request nor is it a request that will generate too many records to search through. I have already done a preliminary record search through Google Scholar and have read many scientific papers on this subject. I have not found any scientific records that are responsive to this request, whether publicly or privately available; this including records referenced and published by the USA CDC.

Alleged Infectious Diseases

"Infectious Diseases" listed in Schedule 1 that are alleged to be caused by viruses:

"Infections Diseases on Schedule 1"
Acute gastroenteritis
Arboviral diseases

"Infections Diseases on Schedule 1"

Avian influenza (capable of being transmitted between human beings)
COVID-19
Creutzfeldt Jakob Disease and other spongiform encephalopathies (Mad Cow)
Hepatitis (viral) not otherwise specified
Hepatitis A
Hepatitis B
Hepatitis C
Herpes simplex
Highly Pathogenic Avian Influenza (including HPAI subtype H5N1)
Influenza
Measles
Middle East Respiratory Syndrome
Mumps
Non-seasonal influenza (capable of being transmitted between human beings)
Novel coronavirus capable of causing severe respiratory illness
Poliomyelitis
Rabies and other lyssaviruses
Rubella
Severe Acute Respiratory Syndrome
Varicella-zoster infection
Venereal warts
Viral haemorrhagic fevers (capable of being transmitted between human beings)
Yellow fever

Response to your request for information, ref: H202205674

[REDACTED]

[REDACTED]

Thank you for your request under the Official Information Act 1982 (the Act) to the Ministry of Health (the Ministry) on 26 April 2022 for:

"All studies and/or reports in the possession, custody or control of The Ministry of Health describing the purification of any ALLEGED "virus" including any alleged "variants" which is claimed to cause ANY OF THE "infectious diseases" listed in the New Zealand Health Act 1956 Section 1 (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please also note that my request is not limited to records that were authored by The Ministry of Health or that pertain to work done at/by The Ministry of Health. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by The Ministry of Health and relied on as evidence of a disease-causing "virus".

My request includes any study/report matching the above description, authored by anyone, anywhere."

As you have been advised previously, particularly in the context of the SARS- COV-2 virus, Poliovirus and Marburg viruses, the Ministry does not hold this information. There is no requirement under the Act for the agencies subject to it to create new information or compile information they do not hold. Your request is therefore refused under section 18(g)(i) as the information requested is not held by the Ministry and there are no grounds for believing it is held by another agency subject to the Act. Please note the Ministry does not conduct scientific research or studies. Please refer to online scientific studies for further information: <https://pubmed.ncbi.nlm.nih.gov/>

You have been advised that should you make further requests for the same information the Ministry may refuse your requests under section 18(h) of the Act, as they may be considered frivolous or vexatious.

Under section 28(3) of the Act, you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: info@ombudsman.parliament.nz or by calling 0800 802 602.

Nga mihi,
