

19 October 2021

Director Public Health
East of England Norfolk (covers Great Yarmouth) – Louise Smith

louise.smith@norfolk.gov.uk

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Dear Mr/Ms [REDACTED]

Freedom of Information Request ENQ-519547-N4Q5W0

I refer to your request for information dated 19th October 2021.

You asked for:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Our response:

Information relating to the medical and scientific analysis of the Covid-19 virus is not held by Norfolk County Council. The Council's Public Health remit extends only to those measures and activities required in discharge of responsibilities as directed by the Secretary of State, and our response to the covid-19 pandemic is predicated on guidance issued by Public Health England (now The UK Health Security Agency).

Under section 11 of the Health and Social Care Act 2012, the Secretary of State for Health has a duty to "take such steps as the Secretary of State considers appropriate for the purpose of protecting the public in England from disease or other dangers to health". By virtue of the Local Authorities (Public Health Functions and Entry to Premises by Local Healthwatch Representatives) Regulations 2013 local authorities have a statutory duty to carry out certain aspects of the Secretary of State's duty to protect the public.

You may wish to redirect your enquiries to the UK Health Security Agency enquiries@ukhsa.gov.uk If you want to information access requests including Freedom of Information (FOI) requests, Environmental Information Regulations (EIR) requests and data subject access requests (SAR) to UKHSA, please email InformationRights@UKHSA.gov.uk

If you are dissatisfied with our handling of your request, you have the right of appeal through the Council's internal review procedure by setting out the grounds of your appeal in writing to:

foi@norfolk.gov.uk

or Information Compliance Team

County Hall

Martineau Lane

Norwich

An appeal should be submitted within 40 working days of the date of this notice and should be identified as "FOI Appeal".

If you are dissatisfied after pursuing the complaints procedure, you may apply to the Information Commissioner under Section 50 of the Act for a decision whether your request for information has been dealt with in accordance with the requirements of Part I of the Act. Refer to the ICO Website at: <https://ico.org.uk/concerns/> for advice on how to report a concern. Or you can write to them at:

Good Morning,

**Freedom of Information Act 2000/Environmental Information Regulations 2004
Information Request ENQ-519547-N4Q5W0**

Thank you for your request for information received on 19th October 2021.

We have up to 20 working days in which to deal with your request.

If we require clarification of your request we will contact you to explain this, and the 20 working-day period will then start from the day that we receive your clarification.

We will inform you in advance if there is a charge for supplying copies of any information, and we will provide an explanation if any information which we hold is not released to you.

If the requested information contains references to any third parties, we may need to seek their views before we can decide whether or not to release the information to you. In such cases we will not share your own personal details with third parties.

Should you have any queries regarding your request, please contact the team by email at foi@norfolk.gov.uk or by telephone on 01603 222661.

Yours sincerely

Sarah Cooper, Business Support Assistant
