Request for information about SARS-COV-2 Purification and Variants CON0010004

We refer to your email dated 31 March 2022 in which you requested the following information:

Note

Please do not transfer my request to any other organization. I have already received responses from MOH, ESR, NZ Defence Force, Universities and many more. Since the Serious Fraud Office has rejected my claim CON0008847 after almost 1 year of 'investigating', surely the SFO office has direct evidence for the existence of SARS-COV-2. SFO must have this evidence which MOH, ESR, USA CDC doesn't have in order to reject my claim. So I am asking for direct evidence of SARS-COV-2. Otherwise, SFO has to admit that SARS-COV-2 doesn't exist and actually do their job addressing the serious and complex fraud committed by ESR, University of Otago, MOH, and the Prime Minister.

Description of Requested Records:

*All studies and/or reports in the possession, custody or control of Serious Fraud Office describing the **purification** of any "COVID-19 virus" (aka "SARS-COV-2", including any **alleged "variants"** i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

*Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things.*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.*

*Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please also note that my request is **not limited** to records that were authored by Serious Fraud Office or that pertain to work done at/by Serious Fraud Office. Rather, my request*

includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by Serious Fraud Office and relied on as evidence of a disease-causing "virus".

Please note, I am requesting all records regardless if the records are publicly available or privately available.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Complexity

Please Note, this is not a complex request nor is it a request that will generate too many records to search through. I have already done a preliminary record search through Google Scholar and have read many scientific papers on this subject. I have not found any responsive publicly and privately available scientific records including records referenced and published by the USA CDC.

We have considered your request under the Official Information Act 1982 (**OIA**).

We do not hold any of the information you request. Accordingly, we refuse your request on the basis that the requested information does not exist pursuant to s 18(e) of the OIA.

You are entitled to make a complaint about our decision to the Office of the Ombudsman. They can be contacted at P O Box 10152, Wellington 6143 or at office@ombudsman.parliament.nz.

Yours sincerely

A handwritten signature in blue ink, appearing to be 'Kylie Cooper', with a long horizontal flourish extending to the right.

Kylie Cooper
Acting General Counsel
