RE: Public Records Reference # P015917-052522

Dear *Kristen Welch*:

On May 25, 2022, the California Department of Public Health (CDPH) received your request for records under the Public Records Act (PRA) wherein you requested the following:

*May 25, 2022
RE: Public Records Request
To: The California Department of Public Health
PO Box 997377
MS 0500
Sacramento, CA 95899-7377
Phone: 916-558-1784
Submitted via the CDPH Public Records Portal*

*To The California Department of Public Health,
This is a formal request for access to general records, made under the Freedom of Information Act.
Description of Requested Records:*

All studies and/or reports in the possession, custody or control of the California Department of Public Health describing the purification of the alleged "MonkeyPox Virus" (aka "Poxviridae Orthopoxvirus", directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: cultured something, and/or performed an amplification test (i.e. PCR), and/or fabricated a genome from sequences (allegedly) detected in an impure substance, and/or produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates or River's Criteria, or records where researchers conflate extraction of genetic material from a patient sample or cell culture with "virus isolation", or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Contact Information:

Last name: Welch

First name: Kristen

Address: [REDACTED]

Lancaster, CA [REDACTED]

Phone: [REDACTED]

Email: moonapothecary@protonmail.com

*Thank you in advance and best wishes,
Kristen Welch*

We have yielded no records responsive to your request.

If you have any questions regarding this matter, please contact me.

Sincerely,

Kelly Sobkowsky

CID/DCDC
