---

Hi Christine!

Thanks so much for sharing my content on Facebook! I am working hard to try and disseminate all of the information for myself and the world around me. Your work is a huge reason why I'm doing what I do.

I wanted to forward one of the FOIA requests that I got back already, this one is from the County of Los Angeles Department of Public Health. Hope it helps! I am going to forward this to our Palmdale Freedom Coalition leaders and to several public offices out here. This is where the majority of our mandates here come from, so this is great!!

I cannot thank you enough for your help and guidance. Your work is changing the world! It definitely changed mine. I'll be in touch again if/when I get more back... the governors office wasn't so nice lol. I am curious as to their response.

Have a wonderful day!

Kristen Welch

**PUBLIC RECORD REQUEST - SUBJECT:** Records describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human

Dear Kristen Welch

This letter is in response to your request for records made pursuant to the California Public Records Act ("CPRA") to the Los Angeles County Department of Public Health ("DPH"). Your request made on May 12, 2022 sought the following:

*"All studies and/or reports in the possession, custody or control of the County of Los Angeles Department of Public Health describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

**Clarification of Request:**

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or

- fabricated a genome from sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

*I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a ‘virus’ without host cells. Nor am I requesting records that describe a strict fulfillment of Koch’s Postulates, or records where researchers conflate extraction of genetic material from a patient sample or cell culture with “virus isolation”, or records that describe a suspected “virus” floating in a vacuum, or private patient information.*

*I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.”*

After a diligent search, the Department has determined that there are no responsive records to your request.

For more information on the diagnostic tests used by the County please refer to the following links:

### **CDC Flu SC2 and Hologic Panther Fusion SARS-COV2**

### **Biofire RP 2.1**

- <https://www.biofire.com/support/documents/>

In providing you with this response, the County is not waiving any rights, defenses, or claims of privilege, exception or exemption under the CPRA or any other statutes. The County reserves its right to assert all applicable privileges, doctrines, and exemptions.

This concludes the Department’s response to your request received May 12, 2022. If you have any questions, please contact me at (323) 659-6148

Sincerely,

*Jorge Perez*
