Detailed description of requested records, personal information or personal information to be corrected. *

1. All studies and/or reports in the possession, custody or control of the City of Peterborough, including Diane Therrien, or any man or woman who serves as "Councilor", "CAO" or "Commissioner" at the City of Peterborough, describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

I am NOT requesting studies/reports where researchers failed to purify the alleged "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

2. If the City is unable to provide or cite any such study, please provide/cite studies/reports describing purification of the alleged virus from a cell culture.

Notice of Trespass, CEASE AND DESIST

To Diane Therrien, woman who acts as "Mayor" at THE CORPORATION OF THE CITY
OF PETERBOROUGH and

Sandra Clancy, woman who acts as "CHIEF ADMINISTRATIVE OFFICER" at THE
CORPORATION OF THE CITY OF PETERBOROUGH

In the letter dated February 15, 2022 from the man John Kennedy who acts as "Clerk" (attached), this statement:

"no record as described above exists"

is a confession that you and your colleagues at THE CORPORATION OF THE CITY OF PETERBOROUGH have no scientific proof of the existence of the alleged SARS-COV-2 since purification is a necessary (but not sufficient) step in proving the existence of a virus that is claimed to have circulated in humans (a replication-competent obligate intra-cellular parasite that transmits between hosts and causes disease via natural modes of exposure).

Immediately cease and desist all claims and activity relating to the alleged SARS-COV-2 and all other alleged viruses for which you have no such records.

You have until August 5, 2022 to rebut my claim with **written verified evidence**. If you fail to do so your tacit agreement will be in place that you are incompetent, have caused enormous wrong and harm, and are not fit for "public office".
