Freedom Of Information Request

\$5.00

Base Amount:\$5.00

Records Requested*:

All studies / reports in the possession, custody or control of Eileen de Villa or Toronto Public Health describing anyone on Earth finding and purifying any "monkeypox virus" directly from the bodily fluid/tissue/excrement of any diseased host (animal or human) where the bodily fluid/tissue was not first combined with any other source of genetic material (i.e. cell line; fetal bovine serum). Please note that I do not require and do not want studies/reports where researchers failed to purify an alleged "virus" from a diseased host's bodily fluid/tissue and instead: -cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs, watched for cytopathic effects and called that "virus isolation", and/or -performed an unreliable amplification test (i.e. a PCR test), that can only detect sequences and not "viruses", on the soup of genetic material extracted from a host's bodily fluid or from cell culture supernatant, and/or -fabricated an in silico (computer) sequence (fake "genome") from millions of sequences unreliably detected in the soup of total nucleic extracted from a host's bodily fluid or from a cell culture, and/or -produced electron microscopy images of unpurified particles in a cell culture. For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I do not require records describing the replication of an alleged "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records. I simply require records that describe purification (separation from everything else in the bodily fluid/tissue, as per standard laboratory practices for the purification of other very small things). I require any study/report matching the above details, authored by anyone, anywhere, since the alleged discovery of these alleged "viruses". In the interest of transparency and in accordance with the purposes of MFIPPA, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible. Should it prove impossible to provide any such study (since none exist and virology is not a science), then please provide or cite a study that, according to Thomas Piggott, proves the existence of any such "virus". Format: Pdf documents sent to me via email; I do not wish for anything to be shipped to me.
