
please share scientific evidence of viruses?

Christine Massey <cmssyc@gmail.com>

Hi Igor,

I hope this finds you well!

I've been investigating claims of viruses and would appreciate your input. Attached are some papers wherein authors claimed to have isolated and sequenced the alleged "SARS-COV-2" (including the CDC paper, the Canadian paper by Banerjee et al., and the earliest papers out of China).

 [Banerjee et al.pdf](#)

Have you read the Methods that were used in these papers, or in any other "SARS-COV-2 isolation/sequencing" papers? If so, do you consider them valid and scientific?

If not, do you know of *any* scientific evidence ("isolation/sequencing" paper, "gain of function" paper, patent) wherein the scientific method was applied and "SARS-COV-2" (or any other alleged virus, natural or man-made) was shown to exist? Or any scientific evidence proving contagion of a respiratory disease?

And if not, will you lend your support to the [Settling the Virus Debate statement](#)?

Thank you in advance and best wishes,
Christine Massey
Ontario, Canada

Ad hominen attacks... how scientific.

That article you cite is behind a paywall, USD 39.95, so cannot be evaluated - all you've shared are unhelpful claims. I'd bet my bottom dollar that the paper includes zero science showing that any particles fit the definition of a virus. Interesting that you didn't share an accessible "SARS-COV-2" paper. Also they claim to have purified an "adenovirus strain", meanwhile on March 11, 2022 the U.S. Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry (CDC/ATSDR) confessed that a search of their records failed to find any that describe anyone on Earth finding an alleged "adenovirus" in the bodily fluids of a diseased host and purifying "it"... which is necessary so that "it" could be sequenced, characterized and studied with controlled experiments:

Here they purified and isolated physical Sars-Cov-2 virus, then added a bit to human vero cells, the virus multiplied very nicely.

All this talk that "sars-cov-2 was never isolated" is not true -- it was isolated, grown, sold to labs etc

You can buy other viruses from biolabs too -- if you have the papers -- even the Covid virus

Where??? You cited zero studies, Igor. Back up your wild claims with evidence. I have literally HUNDREDS of FOI responses from ~40 countries and no one has any record of this ever being done, by anyone, anywhere, ever. This includes 8 FOIAs from the CDC. So kindly share the evidence that no one else on Earth has. And lol, you buy pay to sit on Santa's lap too.

Freedom of Information Responses reveal that health/science institutions around the world (211 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

FOIs reveal that health/science institutions have no record of any "virus" having been found in a host and isolated/purified. Because virology isn't a science:

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

Do virologists perform valid control experiments? Is virology a science?

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

Igor, I'm still waiting for you to share scientific proof of any "virus". You went silent on me. Please address this. I'm looking for your answer, not for others to chime in again and take the heat off you.

Igor Chudov 14 hr ago  **Author**

But you won't accept any scientific proof? What do you want? Links to articles? You would dismiss all of them.

So try using your personal experience and explain to me, what is the contagious pathogen that facilitated "chickenpox parties"

Christine Massey FOIs Writes Christine Massey's "germ" FOI N... 3 min ago

Yes Igor, I do want you to give citations or links to articles. You're the one claiming that viruses exist. Are you not willing to expose yourself by disclosing what you consider to be scientific evidence of a virus? Don't change the topic and expect me to go along with your unproven premise of a contagious chickenpox pathogen and demand that I explain something that I don't even believe or claim. Just cite your evidence, let's see if it's valid.

For the 3rd time Igor: Let's see your scientific proof of any "virus". You keeping running away from our chats. Please address this. I'm still looking for your answer, not for others to chime in again and take the heat off you. I've been taking screenshots, and will be publishing your response or nonresponse, as the case may be. Your choice.

Also, the first FOI that I filed was on May 14, 2020, as shown on my website. I never heard of any "Boostershots" until the last month or so, have barely looked at that blog, and certainly take no directions from whoever that man or woman is. But I'll graciously accept your public apology, as soon as you have issued it.

Health Canada has no record of "COVID-19 virus" isolation
