Hi Christine thanks for the inspiration.

Please find attached a pdf response from NHS Grampian - Information not held.

I also sent an FOIR to Moray Council on Dec 15th, no reply yet. They have 20 working days to respond.

Thank you,
Kevin McKenzie B.Eng

Dear Mr McKenzie

Freedom of Information (Scotland) Act 2002

I refer to your e-mail dated 11 December 2022, requesting:

"Description of Requested Records:

All studies and /or reports from anywhere in the world describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2" including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request

Please note I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- * cultured something, and/or*
- * performed an amplification test (i.e. PCR), and/or*
- * fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or*
- * produced electron microscopy images of unpurified things.*

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a "virus" without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply require records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the

purification of other very small things).

Please note that my request includes any study/report matching the above description authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible."

I can now respond as follows:

Description of Requested Records:

All studies and /or reports from anywhere in the world describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2" including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request

Please note I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- * cultured something, and/or**
- * performed an amplification test (i.e. PCR), and/or**
- * fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or**
- * produced electron microscopy images of unpurified things.**

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a "virus" without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply require records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible. In relation to all of the above NHS Grampian can advise it does not hold any studies or reports into what is requested; s.17 of the Act refers – Information not held.

Under section 20 (1) of the Act, if you are dissatisfied with the way NHS Grampian has dealt with your request, you have a right to request a review of our actions and decisions in relation to your request, and you have a right to appeal to the Scottish Information Commissioner.

A request for review must be made within 40 working days and should, in the first instance, be in writing to: Directorate of Corporate Communications, Foresterhill House, Foresterhill, Aberdeen, AB25 2ZB or by email to gram.foi@nhs.scot

Requests for appeal can be made by using the Scottish Information Commissioner's online service at www.itspublicknowledge.info/Appeal or should be made in writing to: Scottish Information Commissioner, Kinburn Castle, Doubledykes Road, St Andrews, Fife, KY16 9DS Telephone: 01334 464610, Fax: 01334 464611.

If you remain dissatisfied following an appeal to the Scottish Information Commissioner your recourse is to the Court of Session on a point of law.

Yours sincerely
