Dear Roger,

I require access to general records;

Description of Required Records:

All studies - in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) and/or the people who are responsible for the **CDC's claim** that psittacosis is caused by Chlamydia psittaci - that:

used purified Chlamydia psittaci cultures to scientifically prove/evidence causation of psittacosis through a natural exposure route;

I am not seeking records that describe attempts to prove causation using unscientific methods; recall that **scientific proof/evidence is not:**

opinions, or

speculation, or

review papers, or

descriptive papers;

scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, repeatable controlled experiments where only 1 variable differs between the experimental and control groups;

I require any study/report matching the above description, **authored by anyone, anywhere, ever;**

If any records match the above description and are currently available elsewhere, please provide enough information about each one so that I may identify and access them with certainty: title, author(s), date, journal, location, URLs where possible;

Format:

Pdf documents sent to me via email; I do not want anything shipped to me;

Dear Ms. Massey:

The Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) received your attached Freedom of Information Act (FOIA) request dated June 8, 2023. Your request assigned number is 23-01284-FOIA, and it has been placed in our complex processing queue.

In unusual circumstances, an agency can extend the twenty-working-day limit to respond to a FOIA request.

We will require more than thirty working days to respond to your request because we reasonably expect that two or more CDC centers, institutes, and offices (C/Os) may have responsive records.

To process your request promptly, please consider narrowing the scope of your request to limit the number of responsive records. If you have any questions or wish to discuss reformulation or an alternative time frame for the processing of your request, you may contact the analyst handling your request Mark Harper at 770-488-8154 or our FOIA Public Liaison, Roger Andoh at 770-488-6277. Additionally, you may contact the Office of Government Services (OGIS) to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services; National Archives and Records Administration; 8601 Adelphi Road-OGIS; College Park, Maryland 20740-6001; e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Because you are considered an "Other requester" you are entitled to two hours of free search time, and up to 100 pages of duplication (or the cost equivalent of other media) without charge, and you will not be charged for review time. We may charge for search time beyond the first two hours and for duplication beyond the first 100 pages. (10 cents/page).

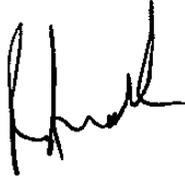

If you don't provide us with a date range for your request, the cut-off date for your request will be the date the search for responsive records starts.

You may check on the status of your case on our FOIA webpage <https://foia.cdc.gov/app/Home.aspx> and entering your assigned request number. If you have any questions regarding your request, please contact me at 770-488-8154 or via email at wzj6@cdc.gov.

We reasonably anticipate that you should receive documents by September 2, 2023. Please know that this date roughly estimates how long it will take the Agency to close requests ahead of your request in the queue and complete work on your request.

The actual date of completion might be before or after this estimated date.

Sincerely,
