Roger Andoh
Freedom of Information Officer
1600 Clifton Rd NE MS T-01
Atlanta, Georgia 30333
Email: FOIARequests@cdc.gov
Phone: 770-488-6277
Fax: 770-488-6200

Greetings Roger,

I require access to general records, as per the *Freedom of Information Act*.

Description of Requested Records:

1. All studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) that scientifically prove/evidence the existence of the alleged **Dengue virus** (showing that the alleged particle exists and causes the disease that it's alleged to cause);

Note:

Scientific proof/evidence is NOT

- Opinions, or
- Speculation, or
- Review papers, or
- Descriptive papers;

scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, repeatable controlled experiments where only 1 variable differs between the experimental and control groups;

2. **If the CDC has no studies responsive to #1 above**, then please indicate such explicitly, and provide all studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the **purification** of particles that are alleged to be said virus(es), directly **from bodily fluid/tissue/excrement, with purification confirmed via EM imaging** (the images must be available as well).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test), and/or
- created an in silico "genome", and/or
- produced electron microscopy images of unpurified things.

I am aware that according to virus dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

General Note:

This FOI is **not limited** to records that were authored by the CDC or ATSDR or that pertain to work done at/by the CDC or ATSDR, it includes any record matching the above description authored by anyone, anywhere, ever.

Publicly Available Records

If any records match the above description of requested records and are currently available to the public elsewhere, please assist me by providing enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; please don't ship anything to me;

Christine Massey

Via email: cmssyc@gmail.com

Dear Ms. Massey:

The Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) received your Freedom of Information Act (FOIA) request dated July 19, 2023, for

I require access to general records, as per the Freedom of Information Act.

Description of Requested Records:

1. All studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) that scientifically prove/evidence the existence of the alleged Dengue virus (showing that the alleged particle exists and causes the dis-ease that it's alleged to cause);

Note:

Scientific proof/evidence is NOT

- Opinions, or*
- Speculation, or*
- Review papers, or*
- Descriptive papers;*

scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, repeatable controlled experiments where only 1 variable differs between the experimental and control groups;

2. If the CDC has no studies responsive to #1 above, then please indicate such explicitly, and provide all studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of particles that are alleged to be said virus(es), directly from bodily fluid/tissue/excrement, with purification confirmed via EM imaging (the images must be available as well).

*Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test), and/or*
- *created an in silico "genome", and/or*
- *produced electron microscopy images of unpurified things.*

I am aware that according to virus dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

General Note:

*This FOI is **not limited** to records that were authored by the CDC or ATSDR or that pertain to work done at/by the CDC or ATSDR, it includes any record matching the above description authored by anyone, anywhere, ever.*

Publicly Available Records

If any records match the above description of requested records and are currently available to the public elsewhere, please assist me by providing enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Your request assigned number is 23-01463-FOIA, and it has been placed in our complex processing queue.

In unusual circumstances, an agency can extend the twenty-working-day limit to respond to a FOIA request.

We will require more than thirty working days to respond to your request because:

1. We reasonably expect to consult with two or more Centers/Institutes/Offices; and
2. We reasonably expect to consult with other federal Agencies.

If you have any questions or wish to discuss reformulation or an alternative time frame for the processing of your request, please contact the analyst handling your request Leigh Davidi at 770-488-6298 or our FOIA Public Liaison, Bruno Viana at 770-488-6246. Additionally, you may contact the Office of Government Services (OGIS) to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services; National Archives and Records Administration; 8601 Adelphi Road-OGIS; College Park, Maryland 20740-6001; e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Because you are considered an “Other requester” you are entitled to two hours of free search time, and up to 100 pages of duplication (or the cost equivalent of other media) without charge, and you will not be charged for review time. We may charge for search time beyond the first two hours and for duplication beyond the first 100 pages. (10 cents/page).

If you don’t provide us with a date range for your request, the cut-off date for your request will be the date the search for responsive records starts.

You may check on the status of your case on our FOIA webpage <https://foia.cdc.gov/app/Home.aspx> and entering your assigned request number. If you have any questions regarding your request, please contact me at 770-488-6298 or via email at ldavidi@cdc.gov.

We reasonably anticipate that you should receive documents by Tuesday, October 10, 2023. Please know that this date roughly estimates how long it will take the Agency to close requests ahead of your request in the queue and complete work on your request. The actual date of completion might be before or after this estimated date.

Sincerely,

August 30, 2023

Christine Massey

Via email: cmssyc@gmail.com

Dear Ms. Massey:

This letter is our final response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of July 19, 2023, for

I require access to general records, as per the Freedom of Information Act.

Description of Requested Records:

1. *All studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) that scientifically prove/evidence the existence of the alleged Dengue virus (showing that the alleged particle exists and causes the dis-ease that it's alleged to cause);*

Note:

Scientific proof/evidence is NOT

- *Opinions, or*
- *Speculation, or*
- *Review papers, or*
- *Descriptive papers;*

scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, repeatable controlled experiments where only 1 variable differs between the experimental and control groups;

2. *If the CDC has no studies responsive to #1 above, then please indicate such explicitly, and provide all studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of particles that are alleged to be said virus(es), directly from bodily fluid/tissue/excrement, with purification confirmed via EM imaging (the images must be available as well).*

*Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test), and/or*
- *created an in silico "genome", and/or*
- *produced electron microscopy images of unpurified things.*

I am aware that according to virus dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

General Note:

*This FOI is **not limited** to records that were authored by the CDC or ATSDR or that pertain to work done at/by the CDC or ATSDR, it includes any record matching the above description authored by anyone, anywhere, ever.*

Publicly Available Records

If any records match the above description of requested records and are currently available to the public elsewhere, please assist me by providing enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Emerging and Zoonotic Infectious Diseases searched using the above information, but no records were found.

You may contact our FOIA Public Liaison at 770-488-6246 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App/Index.aspx>. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be electronically transmitted by Tuesday, November 28, 2023.

Sincerely,

A handwritten signature in black ink, appearing to read 'Roger Andoh', with a stylized, cursive script.
