Yes I do have a question for you:

Can you cite for me a provision of the legislation that authorizes you to reject a FOI request because it was not sent to you on a specific form? If so, I will fill out the form. I have filed many FOIs to many institutions and I know that the legislation only requires that the request be in writing, which it already is.

Also, your email address has been blocked from receiving responses from the email address that I specified for contact information (cmssyc@gmail.com), so it will need to be unblocked.

Thank you and best wishes,

Our office prefers to follow the same process for each request, this was we know we have all of the information we need in order to process the request. If you wouldn't mind fill out the form, to make this process easier I would appreciate it.

As for your email, since we have already communicated through this email regarding this request it may be easier to continue using it going forward.

Thank you,

Hi Sarah,

You have not cited a provision of the legislation that authorizes you to reject a FOI request because it was not sent to you on a specific form. There is no such provision.

I do not provide unnecessary personal information, especially under the banner of the Freedom of Information and **Protection of Privacy Act**. Nor do I perform labour without compensation for "the government". Therefore I will not fill out the form.

It is more difficult for me to communicate with you via this email address. Therefore the email address that I specified for contact information (cmssyc@gmail.com) in my request will need to be unblocked.

Thank you, have a nice day,

Hi Christine,

Yes, you correct under the legislation it does not state that a specific form must be used in order to process a freedom of information request. I was just asking that you follow the same process we have every FOI that comes through our office follow as it ensure that we have received all of the information we would need in order to process the request. If there are sections on our form you feel are unnecessary or do not feel comfortable filling out you may leave those sections blank, as long as we have one channel of contacting you. Please note, that I have not said your FOI request has been denied.

Unfortunately, I do not have the ability to unblock emails from the corporation. Therefore, we will need to communicate via this email.

Sarah, please review my September 19 and 21, 2023 emails to you. You've been unable to cite a provision of the legislation that authorizes you to reject a FOI request because it was not sent to you on a form, because there is no such provision. In other words, you will be in violation of the legislation if you don't respond to the request as is.

There is no need for me to answer you again on this topic. Not sure why you're wasting time and harassing me about this.

Good afternoon Christine,

As mentioned in my email from September 21, 2023, the City of Peterborough has a process that we follow for each request that we receive and this process includes filling out our freedom of information request form. This ensures that we are receiving the information necessary for our office to move forward in the request process, I have attached the form above for your convenience.

After further review of your request, it has been determined that the description you provided in letter has two separate requests. In this case we will need to receive an additional \$5.00 initial fee to go along with the request form as these request will be handled separately.

I am also hoping to get some clarification related to the first request, the description of the records you are looking for is:

"All contracts in the possession, custody or control of Jeff Leal and/or The City of Peterborough, signed or sealed by I, Christine Anne of the Massey family also know as Christine Massey. Timeframe: any time since January 1, 1968."

Can you please clarify that you are looking for agreements or contracts signed by yourself and Jeff Leal during the timeframe provided above?

Please let me know if you have any questions.

Sarah,

If you need extra information from me, you can simply asked for it. I conclude that there is another agenda at play in trying to get me to fill out a form.

You have not attached the form for my convenience. All you're accomplishing by sending me the form and continuing to write about your "process" is harassing and annoying me and wasting my time.

I don't care whether "the City of Peterborough" has a process. You are required to respond to my request regardless of whether or not I fill out a form.

Frankly I'm staring to wonder if you're a real woman or an AI program.

I did not sent you 2 separate requests. It's 1 request for 2 classes of records, all of which relate to me.

My request obviously includes but is not limited to any contracts signed by Jeff Leal and me during the timeframe provided.

Do not change my request without my explicit written authorization.

I've had literally dozens of Ontario institutions email me FOI response records.

Since when are you "not able" to send the records via email, and based on what provision of the legislation? Where did I agree to this up front?

I specified in my request that the records are to be sent to me via email, so it's too late now to decide you aren't going to do that.

Best wishes,

Greetings,

None of you have cited a provision of the legislation that authorizes you to withhold the records based on the fact that I will not pick them up in person or give you my address.

None of you have cited a lawful justification for imposing new conditions that I never agreed to up front, >1.5 months after the filing of my request.

I await the records to which I am legally and lawfully entitled.

John, Sarah, the letter Sarah sent me is inaccurate. Sarah already acknowledged on September 19, 2023 (see attached) that both the text of my request and the application fee had been received. So your time for responding within 30 days per MFIPPA has almost run out.

Good Afternoon,

Section 23(1) of the Act indicates that we are required to give access to the record. We offer the option of either:

- a. mailing the record to the applicant, or
- b. having the record in the Clerk's Office for pick-up.

Please let me know which of these options you would prefer.

Thank you,

Natalie

Greetings,

None of you have cited a provision of the legislation that authorizes you to withhold the records based on the fact that I will not pick them up in person or give you my address.

None of you have cited a lawful justification for imposing new conditions that I never agreed to up front, >1.5 months after the filing of my request.

I await the records to which I am legally and lawfully entitled.

John, Sarah,

Natalie Garnett has emailed me about records, at my gmail account that is still blocked so that I can't respond to her, pages 23, attached.

I've had literally dozens of Ontario institutions email me FOI response records.

Since when are you "not able" to send the records via email, and based on what provision of the legislation? Where did I agree to this up front?

I specified in my request that the records are to be sent to me via email, so it's too late now to decide you aren't going to do that.

Natalie, John,

I don't know why you're wasting my time by repeating the problem of which I'm obviously already well aware.

In less than the time that it took Natalie to write her last email, you could have simply emailed me the record. There is no valid reason not to do so.

You have failed to cite a provision of the legislation that authorizes you to demand that I either pick up the record or provide a mailing address so that you can send it through snail mail.

You and your colleagues have failed to cite a lawful justification for imposing new conditions that I never agreed to up front, >1.5 months after the filing of my request. I stated from the beginning that the records should be sent to me via email.

Your refusal to simply email me the records - which is the **fastest, easiest option and does not involve me driving for hours and wasting money and gas, or you wasting paper or postage, or me having to provide unnecessary personal information** - strongly suggests that you are acting in bad faith.

A recap of the handling of this request thus far:

- Sarah Dessureault repeatedly (to the point of harassment) demanded that I fill in a form and provide personal information - which I had zero obligation to do - under the guise of the Freedom of Information and **Protection of Privacy Act**
- Sarah claimed that she was "unable to" ask the IT department to unblock my email address so that I could respond to her from my gmail account
- Sarah claimed that my 1 request that has 2 sections pertaining to me is actually 2 separate requests
- John authored a letter citing an inaccurate request date, making it look like the request was filed later than it actually was
- your response per s. 19 was weeks late
- you make the ludicrous statement that you are "not able to send records electronically" and have zero explanation or grounds for such a statement

I guess I shouldn't be surprised given the history of poor "service" from people connected to The Corporation of the City of Peterborough, including idiotic and slanderous statements by the former clown mayor, bullying and fraud relating to the **imaginary "virus"** and fake "pandemic", and a false "arrest" based on 1) **lies** taken at face value from the delusional "medical officer" despite video proof to the contrary and 2) **fake/fraudulent court paperwork**.

I await the records to which I am legally and lawfully entitled.

Your continued failure to cite a valid reason for not emailing them to me appears to be tacit admission that you are simply acting in bad faith.

Christine

p.s. It's interesting how Sarah was "able to" send me John's inaccurate letter via email, on October 6, 2023.
