Eligibility Individual present in Canada

Request label	scientific evidence of the alleged "H5N1" / purification / intact genome / contagion
Request description	<p>FYI: I am a woman on the land known as Canada, I do not identify as a "citizen" or "resident" or "individual". On May 10, 2023 CFIA confessed (A-2022-00201 / MD) to having zero scientific proof of the existence of any alleged "virus" ever claimed to have affected livestock in Canada. 1. I now request all studies in the possession, custody or control of the institution, authored by anyone, anywhere since May 10, 2023, or obtained by CFIA since May 10, 2023, that scientifically prove/provide evidence of the existence of the alleged "H5N1" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause). Note: Scientific proof/evidence is NOT opinions, speculation, declarations, review papers or descriptive studies. Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments. 2. If the institution has no studies responsive to #1 above, then please indicate such explicitly and provide all studies and/or reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, describing the purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well). Purify = separate from everything else in the</p>

clinical sample. I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the "host" sample). I am not seeking private patient records. 3. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated in silico). 4. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

Hi,

This message is to confirm receipt of your request on May 10, 2024 made under the Access to Information, for the following records:

On May 10, 2023 CFIA confessed (A-2022-00201 / MD) to having zero scientific proof of the existence of any alleged "virus" ever claimed to have affected livestock in Canada. 1. I now request all studies in the possession, custody or control of the institution, authored by anyone, anywhere since May 10, 2023, or obtained by CFIA since May 10, 2023, that scientifically prove/provide evidence of the existence of the alleged "H5N1" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause). Note: Scientific proof/evidence is NOT opinions, speculation, declarations, review papers or descriptive studies. Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments. 2. If the institution has no studies responsive to #1 above, then please indicate such explicitly and provide all studies and/or reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, describing the purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well). Purify = separate from everything else in the clinical sample. I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the "host" sample). I am not seeking private patient records. 3. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated in silico). 4. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

Bonjour,

Le présent message vise à confirmer la réception de votre demande du 10 mai 2024 ayant été formulée en vertu de la Loi sur l'accès à l'information, pour les documents suivants

Christine

Dear Ms. Eeee,

This is further to your request which was received on May 9, 2024, pursuant to the *Access to Information Act* (the *Act*) for copies of:

On May 10, 2023 CFIA confessed (A-2022-00201 / MD) to having zero scientific proof of the existence of any alleged "virus" ever claimed to have affected livestock in Canada. 1. I now request all studies in the possession, custody or control of the institution, authored by anyone, anywhere since May 10, 2023, or obtained by CFIA since May 10, 2023, that scientifically prove/provide evidence of the existence of the alleged "H5N1" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause). Note: Scientific proof/evidence is NOT opinions, speculation, declarations, review papers or descriptive studies. Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments. 2. If the institution has no studies responsive to #1 above, then please indicate such explicitly and provide all studies and/or reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, describing the purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well). Purify = separate from everything else in the clinical sample. I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the "host" sample). I am not seeking private patient records. 3. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated in silico). 4. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

Canada

Your request involves a large number of records or necessitates a search through a large number of records and meeting the original time limit would unreasonably interfere with the operations of the Agency. We are therefore taking a time extension of up to 30 days, as defined in paragraph 9(1)(a) of the Act, to complete the processing of your request.

The revised due date is **July 9, 2024**.

Please be advised that you are entitled to complain to the Information Commissioner if you feel that this time extension is inappropriate. Complaints should be made within sixty (60) days from this notice to the following address:

Office of the Information Commissioner
30 Victoria Street
Gatineau, Québec K1A 1H3
Tel: 1-800-267-0441
Fax: 819-994-1768

OR by using the online complaint form at:

<https://www.oic-ci.gc.ca/en/make-complaint-online>

Should you have any questions or concerns regarding this matter, do not hesitate to contact me, by telephone at 343-574-9108 or by e-mail at Yashoda.Maliah@inspection.gc.ca.

Yours truly,

Joannis,
Helene

Access to Information and Privacy

Encl. (Section 9)
cc: Information Commissioner

Extension of time limits

9.(1) The head of a government institution may extend the time limit set out in section 7 or subsection 8(1) in respect of a request under this Act for a reasonable period of time, having regard to the circumstances, if

(a) the request is for a large number of records or necessitates a search through a large number of records and meeting the original time limit would unreasonably interfere with the operations of the government institution,

(b) consultations are necessary to comply with the request that cannot reasonably be completed within the original time limit, or

(c) notice of the request is given pursuant to subsection 27(1) by giving notice of the extension and, in the circumstances set out in paragraph (a) or (b), the length of the extension, to the person who made the request within thirty days after the request is received, which notice shall contain a statement that the person has a right to make a complaint to the Information Commissioner about the extension.

Notice of extension to Information Commissioner

(2) Where the head of a government institution extends a time limit under subsection (1) for more than thirty days, the head of the institution shall give notice of the extension to the Information Commissioner at the same time as notice is given under subsection (1).

1980-81-82-83, c. 111, Sch. I “9”.

Prorogation du délai

9. (1) Le responsable d'une institution fédérale peut proroger le délai mentionné à l'article 7 ou au paragraphe 8(1) d'une période que justifient les circonstances dans les cas où :

a) l'observation du délai entraverait de façon sérieuse le fonctionnement de l'institution en raison soit du grand nombre de documents demandés, soit de l'ampleur des recherches à effectuer pour donner suite à la demande;

b) les consultations nécessaires pour donner suite à la demande rendraient pratiquement impossible l'observation du délai;

c) l'avis de la demande a été donné en vertu du paragraphe 27(1).

Dans l'un ou l'autre des cas prévus aux alinéas a), b) et c), le responsable de l'institution fédérale envoie à la personne qui a fait la demande, dans les trente jours suivant sa réception, un avis de prorogation de délai, en lui faisant part de son droit de déposer une plainte à ce propos auprès du Commissaire à l'information; dans les cas prévus aux alinéas a) et b), il lui fait aussi part du nouveau délai.

Avis au Commissaire à l'information

(2) Dans les cas où la prorogation de délai visée au paragraphe (1) dépasse trente jours, le responsable de l'institution fédérale en avise en même temps le Commissaire à l'information et la personne qui a fait la demande.

1980-81-82-83, ch. 111, ann. I « 9 ».

Access to Information Act

Loi sur l'accès à l'information

68 ACT DOES NOT APPLY TO CERTAIN MATERIALS

This act does not apply to

- (a) published material or material available for purchase by the public;
- (b) library or museum material preserved solely for public reference or exhibition purposes; or
- (c) material placed in the Library and Archives of Canada, the National Gallery of Canada, the Canadian Museum of Civilization, the Canadian Museum of Nature, the National Museum of Science and Technology, the Canadian Museum for Human Rights or the Canadian Museum of Immigration at Pier 21 by or on behalf of persons or organizations other than government institutions.

68.1 This Act does not apply to any information that is under the control of the Canadian Broadcasting Corporation that relates to its journalistic, creative or programming activities, other than information that relates to its general administration.

2006, c. 9, s. 159.

This Act does not apply to any information that is under the control of Atomic Energy of Canada Limited other than information that relates to

- (a) its general administration;
- (b) its operation of any nuclear facility within the meaning of section 2 of the Nuclear Safety and Control Act that is subject to regulation by the Canadian Nuclear Safety Commission established under section 8 of that Act.

68 NON-APPLICATION DE LA LOI

La présente loi ne s'applique pas aux documents suivants

- (a) les documents publiés ou mis en vente dans le public;
- (b) les documents de bibliothèque ou de musée conservés uniquement à des fins de référence ou d'exposition pour le public;
- (c) les documents déposés à Bibliothèque et Archives du Canada, au Musée des beaux-arts du Canada, au Musée canadien des civilisations, au Musée canadien de la nature, au Musée national des sciences et de la technologie, au Musée canadien des droits de la personne ou au Musée canadien de l'immigration du Quai 21 par des personnes ou organisations extérieures aux institutions fédérales ou pour ces personnes ou organisations.

68.1 La présente loi ne s'applique pas aux renseignements qui relèvent de la Société Radio-Canada et qui se rapportent à ses activités de journalisme, de création ou de programmation, à l'exception des renseignements qui ont trait à son administration.

2006, ch. 9, art. 159.

La présente loi ne s'applique pas aux renseignements qui relèvent d'Énergie atomique du Canada, Limitée, à l'exception de ceux qui ont trait :

- a) à son administration;
- b) à l'exploitation de toute installation nucléaire, au sens de l'article 2 de la Loi sur la sûreté et la réglementation nucléaires, qui est assujettie à la réglementation de la Commission canadienne de sûreté nucléaire, constituée par l'article 8 de cette loi.

Abstract:	Highly pathogenic avian influenza (HPAI) viruses have spread at an unprecedented scale leading to mass mortalities in birds and mammals. In 2023, the first transatlantic incursion of HPAI A(H5N5) viruses into North America was detected followed shortly thereafter by the first mammalian detection. As these A(H5N5) viruses were similar to contemporary viruses described in Eurasia, the transatlantic spread of A(H5N5)

Dear Helene and "The Honourable Mark Holland", "Minister of Health" and the man acting as such,

Thank you for Helene's letter in response to my ATIP request to CFIA for all studies:

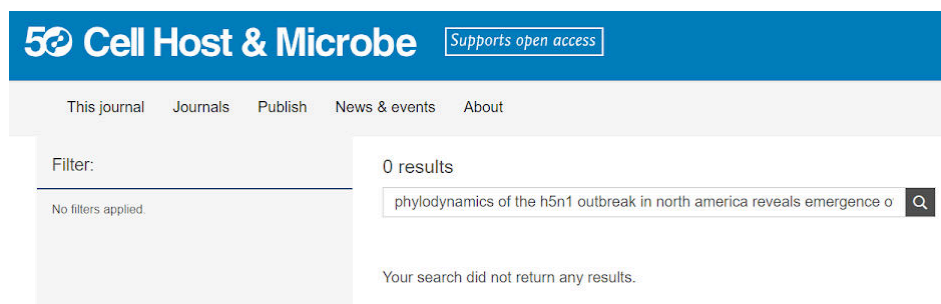

- that scientifically prove/provide evidence of the existence of the alleged "H5N1"
- that describe purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of "hosts"
- wherein the purported "genome" of this alleged "virus" was found intact as opposed to fabricated in silico, and/or
- that scientifically demonstrate contagion of the illness / symptoms allegedly caused by said purported "virus".

Regarding the 2 (alleged) studies mentioned but not provided in Helene's "release package" and her reference to "BioRender":

Thank you, however I won't spend hours reading "BioRender's" terms of service, or agree to them, let alone consider giving money to "BioRender" - especially when I don't see any suggestion that the service provides access to journal articles and I can't find any evidence that studies with the listed titles even exist, anywhere.

Neither of the titles are listed on Pubmed, Sci-Hub, google, Yandex or the website of the relevant journal. The almost-empty "release package" indicates "Manuscript **Draft**" under each title. The response provides no information regarding purported publication dates, journal volume/issue, doi or url.

"Phylogenetics of the h5n1 outbreak in north america reveals emergence of reassortants with increased fitness" - this title returned no results, and the title suggests a meaningless analysis of computer-model "genomes" that have no demonstrated relationship to the real world or my request. (Virologists always fabricate their "genomes" in silico, based on arrangements of countless sequences - none of which were ever shown to come from a specific particle let alone a replication-competent illness-causing "virus".)

"MULTIPLE TRANSATLANTIC INCURSIONS OF HIGHLY PATHOGENIC AVIAN INFLUENZA CLADE 2.3.4.4B A(H5N5) VIRUS INTO NORTH AMERICA AND SPILLOVER TO MAMMALS" - this title also returned no results, and the title suggests another delusional analysis based on more of the same, for an imaginary "virus" ("H5N5") that wasn't even mentioned in my request.

MULTIPLE TRANSATLANTIC INCURSIONS OF HIGHLY PATHOGENIC AI

Q

Your search did not return any results.

I will be publishing an article about this response, showing everyone that despite the media's "H5N1" fear-mongering and the "public health" community **conspiring** to further demonize raw milk and cheese, invade privacy, frighten the public and implement "testing" to conjure up "cases", the "lead agency" still can't demonstrate that it holds even a shred of scientific evidence that "the virus" even exists or that symptoms are contagious (as with **all other "virus" claims**)

I invite Mark and all of the "experts" cc'd on this email to cite **valid scientific evidence** to back up their "virus" activities.

Silence will be interpreted as tacit admission that you are engaged in fraud, complicit in another **hoax and not fit for "public service".**

Christine
