Here are some of the claims made by the scammers at the U.S. Centers for Disease Control and Prevention (CDC) about "human metapneumovirus":

"HMPV spreads from person to person or surfaces to person. Symptoms include cough, fever, nasal congestion, and shortness of breath. Your health care provider can test, however, there is no treatment. Prevention measures include hand washing, cleaning surfaces, and staying home when sick..."

HMPV is most likely spread from an infected person to others through secretions from coughing and sneezing, close personal contact, such as touching or shaking hands, touching objects or surfaces that have the viruses on them then touching the mouth, nose, or eyes..."

Another supposed respiratory virus to distract from the real reasons people get sick and reinforce the harmful programming that goes along with germ narratives.

On January 8, 2025, I filed a FOIA order (pgs [1/2](#)) for all studies held by the CDC or the Agency for Toxic Substances and Disease Registry, *authored by anyone, anywhere, ever*:

1. that **scientifically prove or provide evidence of the existence of the alleged human metapneumovirus** (showing at minimum that the alleged particles exist and cause the illness/symptoms that they are alleged to cause), or
2. (if no records exist for #1) that at least **describe purification of particles** claimed to be human metapneumovirus, directly from their alleged locations: bodily fluid, tissue or excrement of so-called "hosts", or
3. wherein the purported **"genome" of the alleged human metapneumovirus was found intact** in the bodily fluid, tissue or excrement of a so-called "host" (as opposed to fabricated in silico aka modelled on a computer), or
4. that **scientifically demonstrate contagion** of any symptoms / illnesses allegedly caused by the alleged human metapneumovirus.

As usual, I asked that if any records held by the CDC match the above descriptions and are currently available to the public elsewhere, I be provided enough information about each one so that I may identify and access it (titles, authors, etc.).

On February 8, 2025, Roger Andoh, acting as FOIA Officer in the Office of the Chief Operating Officer, confessed in his formal response (#25-00604-FOIA, [pgs 8/9](#)) that:

“A search of our records failed to reveal any documents pertaining to your request.”

Roger then claimed that there “may” be relevant materials online. How impressive and breathtakingly professional coming from “*the nation’s leading science-based, data-driven, service organization that protects the public’s health*”.

About CDC

AT A GLANCE

- CDC is the nation's leading science-based, data-driven, service organization that protects the public's health.
- CDC puts science into action to help children stay healthy so they can grow and learn; to help families, businesses, and communities fight disease and stay strong; and to protect the public's health.

Roger then pointed out that “*the FOIA Act does not require an agency to conduct research outside of agency records*” - which of course was completely irrelevant because I didn’t ask any agency to conduct research for me and never have (contrary to **Booby Kennedy’s gaslighting tactics** about the “germ” FOI collection).

This criminal clown show is happening under the U.S. Department of Health and Human Services (HHS), of which Booby is now playing Secretary.

The entire germ/contagion paradigm is a complete and utter hoax and Booby is now directly complicit.

Life in prison for everyone involved.

Official Confessions/Evidence Confirm that Virology is Pseudoscience

My notarized affidavit regarding the hundreds of freedom of information responses (FOIs) confirming the fraud and delusion of virology, with German and Greek translations:

Freedom of Information Responses reveal that **health/science institutions around the world (225 and counting!) have no record of SARS-COV-2** (the alleged covid virus) **isolation/purification, anywhere, ever:**

Do health and science institutions have **studies proving that bacteria CAUSE disease?**

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because "they" (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don't exist and virology isn't a science.
